

**Poem Title:** Things to do.

**School:** Chukwuemeka Odumegwu Ojukwu University, Uli.

**Address:** Uli, Anambra.

**Email:** [miraclenwegbo101@gmail.com](mailto:miraclenwegbo101@gmail.com)

Keep the foreigner in his proper place: pollutants.

Don't let the queen be taken out of her palace: trees.

The gold mine should not be locked: drainage gutters.

Children's right should be put on: anti-poaching laws.

Don't let the maid's voice be silenced: emergency response.

Exhaust pipes must be extinct: electric vehicles.

Marry Mrs. Renewable: renewable energy alternatives.

Keep the traitor afar off: factories away from residential.

Crown him lord: climate change policy enactment.

Let the King rule: climate change policy implementation.

Punish offenders: law breakers.

Revive the dying: disintegrating zoos & botanical gardens.

Spend every dime on innovation: climate-based research grants.

Write the law on the heart of the shore: safe fishing guidelines.

Mount eagle eyes: coast guards.

The people perish for lack of knowledge: public enlightenment.

Applaud non-wasters: recycling rewards.

Don't let the government do it alone: citizen cooperation.

Convert ore to metal: the unemployed as environment officers.

Kill the cankerworm: anti-corruption.

Iron sharpens iron: learning from climate champion countries.

Monitor, track progress: do it!
