THE DAWN PROJECT COMPETITION 2025.

THEME: **GENERATION RESTORATION: SHAPING OUR FURUTE!**

TITLE: Shaping Our Future, Restoring Our Earth.

We're the generation, restoring the earth with love and care.

Planting trees, cleaning seas, building a future that's fair and bright.

We're the ones we've been waiting for, to save the planet, to make it more.

Reducing waste, using less, living sustainable, we must confess.

Our future's in our hands, let's make it green, let's make it grand.

We'll work together, hand in hand, for a world that's beautiful, for a brighter land.

Generation restoration, it's our goal, to protect the earth, to make it whole.

We'll strive for more, we'll do our best, for a future that's sustainable, for all to rest.

We'll reduce, reuse, recycle, and renew, to keep our planet clean and new.

We'll plant more trees, and reduce our waste, to keep our earth a beautiful place.

We'll work together, united and strong, to protect our planet, all day long.

Our future's in our hands, let's make it bright, let's make it green, let's make it right.

Generation restoration, it's our mission, to protect the earth, with love and vision.

We'll do our best, to make it real, a brighter future, for all to feel.
